## **HOUSE BILL No. 1380**

#### DIGEST OF INTRODUCED BILL

Citations Affected: IC 2-2.1-4; IC 4-10-21.

**Synopsis:** Appropriations limit. Revises the formula for determining the state spending cap to be 99% of available general revenue. Voids general appropriations whenever total appropriations exceed 99% of available general revenue. Voids the appropriations made by a major budget bill whenever the bill or its conference committee report fails to include certain disclosures concerning the amount of spending being proposed by the general assembly.

Effective: July 1, 2004.

## Noe

January 20, 2004, read first time and referred to Committee on Ways and Means.

#### Second Regular Session 113th General Assembly (2004)

PRINTING CODE. Amendments: Whenever an existing statute (or a section of the Indiana Constitution) is being amended, the text of the existing provision will appear in this style type, additions will appear in this style type, and deletions will appear in this style type.

Additions: Whenever a new statutory provision is being enacted (or a new constitutional provision adopted), the text of the new provision will appear in **this style type**. Also, the word **NEW** will appear in that style type in the introductory clause of each SECTION that adds a new provision to the Indiana Code or the Indiana Constitution.

Conflict reconciliation: Text in a statute in *this style type* or *this style type* reconciles conflicts between statutes enacted by the 2003 Regular Session of the General Assembly.

### **HOUSE BILL No. 1380**

0

A BILL FOR AN ACT to amend the Indiana Code concerning state offices and administration.

p

Be it enacted by the General Assembly of the State of Indiana:

У

SECTION 1. IC 2-2.1-4 IS ADDED TO THE INDIANA CODE AS
A NEW CHAPTER TO READ AS FOLLOWS [EFFECTIVE JULY
1, 2004]:

Chapter 4. Budget Bills

Sec. 1. As used in this chapter, "general appropriation" refers to an appropriation described in section 10 of this chapter.

Sec. 2. Except as provided in sections 4 and 5 of this chapter, all of the general appropriations enacted by the general assembly for a state fiscal year, including appropriations for a state fiscal year made by a continuing appropriation enacted in any law, are void if the total of the general appropriations for the state fiscal year exceeds ninety-nine percent (99%) of the state revenue that the budget agency estimates under section 6 of this chapter will be available in the state fiscal year to pay for the appropriations. This section applies to all the general appropriations enacted for a state fiscal year regardless of whether the appropriations were enacted in the same bill or in the same session of the general assembly.

1	Sec. 3. The general appropriations enacted in one (1) particular	
2	bill are void if:	
3	(1) the bill includes appropriations for a state fiscal year,	
4	including increases in the appropriations for a state fiscal	
5	year, that total at least one hundred million dollars	
6	(\$100,000,000); and	
7	(2) the last version of the bill available to and voted on by each	
8	legislator or, if a later conference committee report was	
9	adopted for the bill, the last conference committee report	
10	available to and adopted by each legislator does not include	4
11	the following information on the first or second page of the	
12	bill or in the bill's digest or synopsis:	`
13	(A) A materially accurate and complete explanation	
14	indicating the dollar amount of the surplus or deficit	
15	resulting from subtracting the total of all general	
16	appropriations made for each state fiscal year affected by	4
17	the bill or the bill's conference committee report from the	
18	estimate of state revenue for that state fiscal year.	
19	(B) A materially accurate and complete explanation	
20	indicating the percentage of the state revenue for each	
21	state fiscal year affected by the bill or the bill's conference	
22	committee report that is appropriated for general	
23	appropriations payable in that state fiscal year.	
24	Sec. 4. Sections 2 and 3 of this chapter do not void an	
25	appropriation for a purpose described in IC 4-10-15 for which	
26	expenditures may be made without the enactment of an	
27	appropriation.	1
28	Sec. 5. (a) An appropriation that otherwise must be considered	\
29	in complying with section 2 or 3 of this chapter shall be excluded	
30	from all computations related to determining compliance with	
31	section 2 or 3 of this chapter only if:	
32	(1) the general assembly, in a regular session, authorizes an	
33	emergency appropriation by enacting a supplemental	
34	appropriations act that contains all the statements described	
35	in subsection (b); and	
36	(2) the act is approved by a two-thirds (2/3) majority of the	
37	house of representatives and a two-thirds (2/3) majority of the	
38	senate.	
39	(b) To satisfy subsection (a)(1), an act must contain the	
40	following:	
41	(1) A statement describing which appropriations in the act are	
42	excluded from the application of sections 2 and 3 of this	

1	chapter.
2	(2) A description of the additional amount of emergency
3	appropriations and an explanation of the specific
4	circumstances that created the need for a supplemental
5	appropriation.
6	Sec. 6. (a) For each state fiscal year, the budget agency shall
7	compute an estimate of state revenue using the formula established
8	in section 7 of this chapter. An estimate for the two (2) years of a
9	biennial budget period shall be computed before December 31 of
10	the even-numbered year immediately preceding the beginning of
11	the budget period. The first estimate required under this
12	subsection is the estimate for the budget period beginning July 1,
13	2005, which shall be computed before December 31, 2004.
14	(b) For the second state fiscal year in a budget period, the
15	budget agency shall revise the estimate of state revenue using the
16	formula established in section 7 of this chapter. The revision of the
17	estimate for the second year of a budget period shall be prepared
18	before December 31 of the odd-numbered year immediately
19	preceding the second state fiscal year in the budget period. The
20	first revision required under this subsection is the revision for the
21	second year of the budget period beginning July 1, 2005, which
22	shall be computed before December 31, 2005.
23	(c) The budget agency may revise an estimate calculated under
24	subsection (a) or a revised estimate calculated under subsection (b)
25	after the estimate is distributed. A revision under this subsection
26	must be prepared not later than fifteen (15) days before either
27	chamber of the general assembly adjourns a session sine die.
28	(d) The revenue forecast technical committee shall assist the
29	budget agency in the preparation of state revenue estimates under
30	this section.
31	(e) The last estimate computed under this section and
32	distributed under section 8 of this chapter before the adjournment
33	of a session sine die applies to all appropriations enacted before the
34	end of that session.
35	(f) The last estimate computed under this section and
36	distributed under section 8 of this chapter before a version of a bill
37	or a later conference committee report for a bill is printed applies
38	to all appropriations affected by that version of a bill or a bill's
39	conference committee report.
40	Sec. 7. The estimated state revenue for a state fiscal year is the

amount determined under STEP THREE of the following formula: STEP ONE: Determine the general revenues available for the

1	state fiscal year, which is equal to the estimated revenues	
2	from all sources that are:	
3	(A) forecast by the revenue forecast technical committee to	
4	be received in the immediately following budget period;	
5	and	
6	(B) required by law to be deposited in the state general	
7	fund or the property tax replacement fund;	
8	including revenues from gross retail taxes, utility receipts	
9	taxes, adjusted gross income taxes, cigarette taxes, taxes on	_
10	alcoholic beverages, riverboat wagering taxes, riverboat	
11	admissions taxes, inheritance taxes, insurance premium taxes,	
12	financial institution taxes, interest, and other miscellaneous	
13	income other than revenues described in section 10 STEP	
14	TWO of this chapter.	
15	STEP TWO: Determine the total of net adjustments to be	
16	made to the general revenues for the state fiscal year, which	
17	is the amount determined under clause (I) of the following	
18	formula:	
19	(A) Determine the disproportionate share and enhanced	
20	disproportionate share revenues that will be received by	
21	the state in the state fiscal year.	
22	(B) Determine the interfund transfers to be made from the	
23	build Indiana fund to the state general fund or the	
24	property tax replacement fund in the state fiscal year.	
25	(C) Determine the interfund transfers to be made from the	
26	counter-cyclical revenue and economic stabilization fund	
27	to the state general fund or the property tax replacement	
28	fund in the state fiscal year.	V
29	(D) Determine the sum of the amounts determined under	
30	clauses (A) through (C).	
31	(E) Determine the interfund transfers to be made from the	
32	state general fund or the property tax replacement fund to	
33	the build Indiana fund in the state fiscal year.	
34	(F) Determine the interfund transfers to be made from the	
35 36	state general fund or the property tax replacement fund to	
37	the counter-cyclical revenue and economic stabilization fund in the state fiscal year.	
38	•	
39	(G) Determine the amount included in the amount determined under STEP ONE that results from any of the	
10	following:	
40 41	(i) An extraordinary nonrecurring transfer into the state	
42	general fund or the property tax replacement fund from	
	Somethinand of the property that opincoment thin it on	

1	a source other than the state general fund or the
2	property tax replacement fund.
3	(ii) A distribution from the federal government that may
4	be expended without an appropriation by the general
5	assembly, other than a distribution described in clause
6	(A).
7	(H) Determine the sum of the amounts determined under
8	clauses (E) through (G).
9	(I) Subtract the amount determined under clause (H) from
0	the amount determined under clause (D).
1	STEP THREE: If:
2	(A) the STEP TWO amount is zero (\$0), the estimated state
3	revenues for the state fiscal year is the STEP ONE amount;
4	(B) the STEP TWO amount is greater than zero (\$0), the
5	estimated state revenues for the state fiscal year is the sum
6	of the STEP ONE amount and the STEP TWO amount;
7	and
8	(C) the STEP TWO amount is less than zero (\$0), the
9	estimated state revenues for the state fiscal year is the
20	result of the STEP ONE amount minus the absolute value
21	of the STEP TWO amount.
22	Sec. 8. (a) Not earlier than December 1 and not later than the
23	first session day of the general assembly after December 31 of each
24	even-numbered year, the budget agency shall submit in an
25	electronic format under IC 5-14-6 to the executive director of the
26	legislative services agency a report that includes at least the
27	following information:
28	(1) The estimated state revenue for each of the state fiscal
29	years in the immediately following biennial budget period.
0	(2) The supporting data and calculations necessary for a
31	person to independently verify the manner in which the
32	estimates of state revenue described in subdivision (1) were
3	determined.
34	(b) Not earlier than December 1 and not later than the first
55	session day of the general assembly after December 31 in each
66	odd-numbered year, the budget agency shall submit in an
37	electronic format under IC 5-14-6 to the executive director of the
8	legislative services agency a report that includes at least the
9	following information:
10	(1) The estimated state revenue for the second state fiscal year
1	in the current budget period.
12	(2) The supporting data and calculations necessary for a

1	person to independently verify the manner in which the	
2	estimate of state revenue described in subdivision (1) was	
3	determined.	
4	(c) Not later than three (3) days (including Saturday, Sunday, or	
5	any holiday) after the budget agency revises an estimate of state	
6	revenue distributed under subsection (a) or (b), the budget agency	
7	shall submit in an electronic format under IC 5-14-6 to the	
8	executive director of the legislative services agency a report that	
9	includes at least the following information:	
10	(1) The revised estimated state revenue for the state fiscal	
11	years affected by the report.	
12	(2) The supporting data and calculations necessary for a	
13	person to independently verify the manner in which the	
14	revised estimates of state revenue described in subdivision (1)	
15	were determined.	
16	Sec. 9. (a) The budget agency shall compute the dollar amount	
17	of the total of general appropriations from the state general fund	
18	and the property tax replacement fund for each state fiscal year for	
19	which an appropriation is made or being considered:	
20	(1) each time that a bill or a bill's conference committee	
21	report described in section 3 of this chapter is being	
22	considered for final action by the house of representatives or	
23	the senate; and	
24	(2) not later than thirty (30) days after the adjournment sine	
25	die of a session of the general assembly.	
26	(b) While the general assembly is in session, reports, submitted	
27	in an electronic format under IC 5-14-6, containing at least the	
28	total dollar amount of general appropriations must be delivered to	V
29	the executive director of the legislative services agency in a format	
30	and on a schedule that allows bills and conference committee	
31	reports described in section 3 of this chapter to be printed without	
32	delay with the information required under that section.	
33	(c) Within thirty-five (35) days after a session of the general	
34	assembly adjourns sine die, a report, submitted in an electronic	
35	format under IC 5-14-6, containing at least the total dollar amount	
36	of general appropriations must be delivered to the executive	
37	director of the legislative services agency. A report required by this	
38	subsection must be delivered not later than five (5) regular	
39	business days after it is computed.	
40	Sec. 10. The total of general appropriations from the state	
41	general fund and the property tax replacement fund for a state	

 $fiscal\ year\ is\ equal\ to\ the\ amount\ determined\ under\ STEP\ THREE$ 

1	of the following formula:
2	STEP ONE: Determine the total amount that is authorized by
3	appropriation for payment or transfer from the state general
4	fund or the property tax replacement fund in the state fiscal
5	year, regardless of the bill or session in which the
6	appropriation is or is to be enacted.
7	STEP TWO: Determine the total amount included in the
8	STEP ONE amount that is appropriated from the state
9	general fund or the property tax replacement fund for:
10	(1) settlements and judgments;
11	(2) transfers between accounts in the state general fund,
12	accounts in the property tax replacement fund, or the state
13	general fund and the property tax replacement fund;
14	(3) the distribution of tax refunds or refundable tax
15	credits; or
16	(4) any purpose to the extent that money described in
17	section 7, STEP TWO (G)(ii) of this chapter (distribution
18	from the federal government that may be expended
19	without an appropriation) is to fund the appropriation.
20	STEP THREE: Subtract the STEP TWO amount from the
21	STEP ONE amount.
22	Sec. 11. (a) The part of an appropriation that is an open-ended
23	appropriation exceeding a specific amount appropriated for a
24	purpose is not to be considered in computing general
25	appropriations under section 10 of this chapter.
26	(b) For purposes of section 10 of this chapter, a descriptive
27	appropriation that does not authorize a specific amount for
28	expenditure in a state fiscal year is to be estimated as the maximum
29	amount that the budget agency estimates may be expended in the
30	state fiscal year for the purposes of the appropriation.
31	(c) For purposes of section 10 of this chapter, if an
32	appropriation of a specific amount is made for a period exceeding
33	one (1) state fiscal year, fifty percent (50%) of the appropriated
34	amount is to be allocated as a general appropriation for each state
35	fiscal year in a budget period.
36	(d) For purposes of section 10 of this chapter, language that only
37	authorizes a person to issue bonds, enter into a loan agreement,
38	enter into a lease, or enter into another agreement shall not be
39	treated as an appropriation unless the general assembly otherwise
40	appropriates money to pay for or to repay the authorized
41	obligations.

(e) For purposes of complying with section 3 of this chapter but

42

1	not section 2 of this chapter, only appropriations:
2	(1) that have been enacted into law;
3	(2) that are contained in a bill or a bill's conference committee
4	report in which appropriation surplus or deficit is to be
5	printed;
6	(3) that were previously passed by both houses of the general
7	assembly in the same session as a bill or a bill's conference
8	committee report in which appropriation surplus or deficit is
9	to be printed; or
0	(4) that are contained in any other bill that by rule of the
1	house of representatives or the senate must be considered in
2	complying with section 3 of this chapter;
3	shall be considered in computing the total of general
4	appropriations under section 10 of this chapter.
5	SECTION 2. IC 4-10-21-0.5 IS ADDED TO THE INDIANA CODE
6	AS A NEW SECTION TO READ AS FOLLOWS [EFFECTIVE JULY
7	1, 2004]: Sec. 0.5. As used in this chapter, "general expenditures"
3	refers to an expenditure from the state general fund or the
)	property tax replacement fund that is authorized by a general
)	appropriation subject to IC 2-2.1-4, other than any part of an
	appropriation excluded under IC 2-2.1-4-5.
2	SECTION 3. IC 4-10-21-1, AS ADDED BY P.L.192-2002(ss),
3	SECTION 4, IS AMENDED TO READ AS FOLLOWS [EFFECTIVE
1	JULY 1, 2004]: Sec. 1. As used in this chapter, "state spending cap"
5	refers:
5	(1) for state fiscal years ending before July 1, 2005, to the state
'	spending cap determined under section 2 of this chapter; and
	(2) for state fiscal years beginning after June 30, 2005, to the
)	maximum amount that may be appropriated for general
)	appropriations in a state fiscal year under IC 2-2.1-4.
	SECTION 4. IC 4-10-21-2, AS ADDED BY P.L.192-2002(ss),
2	SECTION 4, IS AMENDED TO READ AS FOLLOWS [EFFECTIVE
3	JULY 1, 2004]: Sec. 2. (a) For the state fiscal year beginning July 1,
1	2003, and ending June 30, 2004, the state spending cap is equal to the
5	result determined under STEP THREE of the following formula:
<u>.</u>	STEP ONE: Determine the sum of the total of the appropriations
7	made from the state general fund and the property tax
3	replacement fund (including continuing appropriations) for the
9	state fiscal year beginning July 1, 2002, and ending June 30,
0	2003.
1	STEP TWO: Subtract from the STEP ONE result two hundred
2	forty-three million dollars (\$243,000,000), which is the amount

chapter multiplied by the state spending cap for the immediately preceding state fiscal year:  (d) (c) The state spending cap imposed under this section is increased in the initial state fiscal year in which the state receives additional revenue for deposit in the state general fund or property tax replacement fund as a result of the enactment of a law that:  (1) establishes a new tax or fee after June 30, 2002;  (2) increases the rate of a previously enacted tax or fee after June 30, 2002; or  (3) reduces or eliminates an exemption, a deduction, or a credit against a previously enacted tax or fee after June 30, 2002.  The amount of the increase is equal to the average revenue that the budget agency estimates will be raised by the legislative action in the initial two (2) full state fiscal years in which the legislative change is in effect.  (c) (d) The state spending cap imposed under this section is decreased in the initial state fiscal year in which the state is affected by a decrease in revenue deposited in the state general fund or property tax replacement fund as the result of the enactment of a law that:  (1) eliminates a tax or fee after June 30, 2002;  (2) eliminates any part of a tax rate or fee after June 30, 2002; or  (3) establishes or increases an exemption, a deduction, or a credit against a tax or fee after June 30, 2002.		
thirty-five thousandths (1.035).  (b) For the state fiscal year beginning July 1, 2004, and ending June 30, 2005, the state spending cap is equal to the product of the result determined under subsection (a) multiplied by one and thirty-five thousandths (1.035).  (c) The state spending cap for a state fiscal year beginning after June 30, 2005, is equal to the product of the state spending growth quotient for the state fiscal year determined under section 3 of this chapter multiplied by the state spending cap for the immediately preceding state fiscal year:  (d) (c) The state spending cap imposed under this section is increased in the initial state fiscal year in which the state receives additional revenue for deposit in the state general fund or property tax replacement fund as a result of the enactment of a law that:  (1) establishes a new tax or fee after June 30, 2002;  (2) increases the rate of a previously enacted tax or fee after June 30, 2002; or  (3) reduces or eliminates an exemption, a deduction, or a credit against a previously enacted tax or fee after June 30, 2002.  The amount of the increase is equal to the average revenue that the budget agency estimates will be raised by the legislative action in the initial two (2) full state fiscal years in which the state is affected by a decreased in the initial state fiscal year in which the state is affected by a decrease in revenue deposited in the state general fund or property tax replacement fund as the result of the enactment of a law that:  (1) eliminates a tax or fee after June 30, 2002;  (2) eliminates any part of a tax rate or fee after June 30, 2002; or  (3) establishes or increases an exemption, a deduction, or a credit against a tax or fee after June 30, 2002;  The amount of the decrease is equal to the average revenue that the budget agency estimates will be lost as a result of the legislative action in the initial two (2) full state fiscal years in which the legislative action in the initial two (2) full state fiscal years in which the legisla		·
(b) For the state fiscal year beginning July 1, 2004, and ending June 30, 2005, the state spending cap is equal to the product of the result determined under subsection (a) multiplied by one and thirty-five thousandths (1.035).  (c) The state spending cap for a state fiscal year beginning after June 30, 2005, is equal to the product of the state spending growth quotient for the state fiscal year determined under section 3 of this chapter multiplied by the state spending cap for the immediately preceding state fiscal year.  (d) (c) The state spending cap imposed under this section is increased in the initial state fiscal year in which the state receives additional revenue for deposit in the state general fund or property tax replacement fund as a result of the enactment of a law that:  (1) establishes a new tax or fee after June 30, 2002;  (2) increases the rate of a previously enacted tax or fee after June 30, 2002; or  (3) reduces or eliminates an exemption, a deduction, or a credit against a previously enacted tax or fee after June 30, 2002.  The amount of the increase is equal to the average revenue that the budget agency estimates will be raised by the legislative action in the initial two (2) full state fiscal years in which the legislative change is in effect.  (c) (d) The state spending cap imposed under this section is decreased in the initial state fiscal year in which the state is affected by a decrease in revenue deposited in the state general fund or property tax replacement fund as the result of the enactment of a law that:  (1) eliminates a tax or fee after June 30, 2002;  (2) eliminates any part of a tax rate or fee after June 30, 2002; or  (3) establishes or increases an exemption, a deduction, or a credit against a tax or fee after June 30, 2002.  The amount of the decrease is equal to the average revenue that the budget agency estimates will be lost as a result of the legislative action in the initial two (2) full state fiscal years in which the legislative action in the initial two (2) full s		* *
30, 2005, the state spending cap is equal to the product of the result determined under subsection (a) multiplied by one and thirty-five thousandths (1.035).  (c) The state spending cap for a state fiscal year beginning after June 30, 2005, is equal to the product of the state spending growth quotient for the state fiscal year determined under section 3 of this chapter multiplied by the state spending cap for the immediately preceding state fiscal year:  (d) (c) The state spending cap imposed under this section is increased in the initial state fiscal year in which the state receives additional revenue for deposit in the state general fund or property tax replacement fund as a result of the enactment of a law that:  (1) establishes a new tax or fee after June 30, 2002;  (2) increases the rate of a previously enacted tax or fee after June 30, 2002; or  (3) reduces or eliminates an exemption, a deduction, or a credit against a previously enacted tax or fee after June 30, 2002.  The amount of the increase is equal to the average revenue that the budget agency estimates will be raised by the legislative action in the initial two (2) full state fiscal years in which the legislative change is in effect.  (c) (d) The state spending cap imposed under this section is decreased in the initial state fiscal year in which the state is affected by a decrease in revenue deposited in the state general fund or property tax replacement fund as the result of the enactment of a law that:  (1) eliminates a tax or fee after June 30, 2002;  (2) eliminates any part of a tax rate or fee after June 30, 2002; or  (3) establishes or increases an exemption, a deduction, or a credit against a tax or fee after June 30, 2002.  The amount of the decrease is equal to the average revenue that the budget agency estimates will be lost as a result of the legislative action in the initial two (2) full state fiscal years in which the legislative action in the initial two (2) full state fiscal years in which the legislative		• • • • • • • • • • • • • • • • • • • •
determined under subsection (a) multiplied by one and thirty-five thousandths (1.035).  (c) The state spending cap for a state fiscal year beginning after June 30, 2005, is equal to the product of the state spending growth quotient for the state fiscal year determined under section 3 of this chapter multiplied by the state spending cap for the immediately preceding state fiscal year:  (d) (c) The state spending cap imposed under this section is increased in the initial state fiscal year in which the state receives additional revenue for deposit in the state general fund or property tax replacement fund as a result of the enactment of a law that:  (1) establishes a new tax or fee after June 30, 2002;  (2) increases the rate of a previously enacted tax or fee after June 30, 2002; or  (3) reduces or eliminates an exemption, a deduction, or a credit against a previously enacted tax or fee after June 30, 2002.  The amount of the increase is equal to the average revenue that the budget agency estimates will be raised by the legislative action in the initial two (2) full state fiscal years in which the legislative change is in effect.  (e) (d) The state spending cap imposed under this section is decreased in the initial state fiscal year in which the state is affected by a decrease in revenue deposited in the state general fund or property tax replacement fund as the result of the enactment of a law that:  (1) eliminates a tax or fee after June 30, 2002;  (2) eliminates any part of a tax rate or fee after June 30, 2002; or  (3) establishes or increases an exemption, a deduction, or a credit against a tax or fee after June 30, 2002.  The amount of the decrease is equal to the average revenue that the budget agency estimates will be lost as a result of the legislative action in the initial two (2) full state fiscal years in which the legislative		
thousandths (1.035).  (c) The state spending cap for a state fiscal year beginning after June 30, 2005, is equal to the product of the state spending growth quotient for the state fiscal year determined under section 3 of this chapter multiplied by the state spending cap for the immediately preceding state fiscal year.  (d) (c) The state spending cap imposed under this section is increased in the initial state fiscal year in which the state receives additional revenue for deposit in the state general fund or property tax replacement fund as a result of the enactment of a law that:  (1) establishes a new tax or fee after June 30, 2002;  (2) increases the rate of a previously enacted tax or fee after June 30, 2002; or  (3) reduces or eliminates an exemption, a deduction, or a credit against a previously enacted tax or fee after June 30, 2002.  The amount of the increase is equal to the average revenue that the budget agency estimates will be raised by the legislative action in the initial two (2) full state fiscal years in which the legislative change is in effect.  (e) (d) The state spending cap imposed under this section is decreased in the initial state fiscal year in which the state is affected by a decrease in revenue deposited in the state general fund or property tax replacement fund as the result of the enactment of a law that:  (1) eliminates a tax or fee after June 30, 2002;  (2) eliminates any part of a tax rate or fee after June 30, 2002; or  (3) establishes or increases an exemption, a deduction, or a credit against a tax or fee after June 30, 2002.  The amount of the decrease is equal to the average revenue that the budget agency estimates will be lost as a result of the legislative action in the initial two (2) full state fiscal years in which the legislative action in the initial two (2) full state fiscal years in which the legislative	5

1	tax replacement fund, and the counter-cyclical revenue and economic	
2	stabilization fund is the least of the following:	
3	(1) Subject to sections 6 and 7 of this chapter, the state spending	
4	cap for the state fiscal year.	
5	(2) The amount appropriated by the general assembly from the	
6 7	state general fund, the property tax replacement fund, and the counter-cyclical revenue and economic stabilization fund.	
8	(3) The amount of money available in the state general fund, the	
9	property tax replacement fund, and the counter-cyclical revenue	
10	and economic stabilization fund to pay expenditures.	
11	(b) Subject to sections 6 and 7 of this chapter, if the state spending	
12	cap for the state fiscal year is less than the amount appropriated by the	,
13	general assembly in the state fiscal year from the state general fund, the	
14	property tax replacement fund, and the counter-cyclical revenue and	
15	economic stabilization fund, the budget agency shall reduce the	
16	amounts available for expenditure from the state general fund, the	
17	property tax replacement fund, and the counter-cyclical revenue and	(
18	economic stabilization fund in the state fiscal year by using the	
19	procedures in IC 4-13-2-18.	
20	(c) This section expires July 1, 2005.	
21	SECTION 6. IC 4-10-21-5.1 IS ADDED TO THE INDIANA CODE	ı
22	AS A NEW SECTION TO READ AS FOLLOWS [EFFECTIVE JULY	
23	1, 2004]: Sec. 5.1. (a) After June 30, 2005, the maximum total	
24	amount that may be expended for general expenditures in a state	•
25	fiscal year is the least of the following:	
26	(1) The state spending cap for the state fiscal year.	
27	(2) The amount appropriated by the general assembly from	
28	the state general fund or the property tax replacement fund	
29	for general expenditures.	
30	(3) The amount of money available in the state general fund	
31	or the property tax replacement fund to pay general	
32	expenditures.	
33	(b) If the state spending cap for the state fiscal year is less than	
34 35	the amount appropriated by the general assembly for general	
36	expenditures in the state fiscal year, when all open-ended appropriations and nonspecific descriptive appropriations are	
37	considered, the budget agency shall reduce the amounts available	
38	for general expenditures to avoid a total amount of general	
39	expenditures that exceed the state spending cap by using the	
10	procedures set forth in IC 4-13-2-18	

SECTION 7. IC 4-10-21-6, AS ADDED BY P.L.192-2002(ss), SECTION 4, IS AMENDED TO READ AS FOLLOWS [EFFECTIVE

1 2	JULY 1, 2004]: Sec. 6. (a) The following expenditures that would otherwise be subject to this chapter shall be excluded from all	
3	computations and determinations related to a state spending cap:	
4	(1) Expenditures derived from money deposited in the state	
5	general fund, the property tax replacement fund, and the	
6	counter-cyclical revenue and economic stabilization fund from	
7	any of the following:	
8	(A) Gifts.	
9	(B) Federal funds.	_
10	(C) Dedicated funds.	
11	(D) Intergovernmental transfers.	
12	(E) Damage awards.	
13	(F) Property sales.	
14	(2) Expenditures for any of the following:	
15	(A) Transfers of money among the state general fund, the	_
16	property tax replacement fund, and the counter-cyclical	
17	revenue and economic stabilization fund.	
18	(B) Reserve fund deposits.	
19	(C) Refunds of intergovernmental transfers.	
20	(D) Payment of judgments against the state and settlement	
21	payments made to avoid a judgment against the state, other	
22	than a judgment or settlement payment for failure to pay a	
23	contractual obligation or a personnel expenditure.	
24	(E) Distributions or allocations of state tax revenues to a unit	_
25	of local government under IC 36-7-13, IC 36-7-26, IC 36-7-27,	
26	IC 36-7-31, or IC 36-7-31.3.	_
27	(F) Motor vehicle excise tax replacement payments that are	
28	derived from amounts transferred to the state general fund	Y
29	from the lottery and gaming surplus account of the build	
30	Indiana fund.	
31	(G) Distributions of state tax revenues collected under IC 7.1	
32	that are payable to cities and towns.	
33	(b) This section expires July 1, 2005.	
34	SECTION 8. IC 4-10-21-7, AS ADDED BY P.L.192-2002(ss),	
35	SECTION 4, IS AMENDED TO READ AS FOLLOWS [EFFECTIVE	
36	JULY 1, 2004]: Sec. 7. (a) An appropriation otherwise subject to the	
37	state spending cap limitation imposed by section 5 of this chapter shall	
38	be treated as exempt from the state spending cap limitation only if the	
39	general assembly specifically exempts the appropriation from the state	
40 4.1	spending cap in clear and unambiguous language contained in the bill	
41 42	making the appropriation.	
42	(b) The following language shall be treated as meeting the	

1	requirements of subsection (a):	
2	"The general assembly waives the state spending cap limitation	
3	imposed by IC 4-10-21-5 for the state fiscal year beginning July	
4	1, (insert the applicable year), and ending June 30, (insert the	
5	applicable year), for the following appropriation: (insert the	
6	language of the appropriation). Notwithstanding	
7	IC 4-10-21-5(a)(1), the budget agency may allot appropriations	
8	for the appropriation without making any reduction under	
9	IC 4-10-21-5(b).".	
10	(c) Language in a bill such as "Notwithstanding IC 4-10-21" or	
11	"IC 4-10-21 does not apply to this appropriation" shall not be treated	
12	as meeting the requirements of subsection (a). The budget agency may	
13	consider the language described in this subsection or other language	
14	that does not meet the requirements of subsection (a) only in	
15	determining which appropriations to make available for expenditure	
16	under section 5(b) of this chapter.	
17	(d) This section expires July 1, 2005.	U
18	SECTION 9. IC 4-10-21-8, AS ADDED BY P.L.192-2002(ss),	
19	SECTION 4, IS AMENDED TO READ AS FOLLOWS [EFFECTIVE	
20	JULY 1, 2004]: Sec. 8. (a) Not earlier than December 1 and not later	
21	than the first session day of the general assembly after December 31 of	
22	each even-numbered year, the budget agency shall submit a report in	
23	writing an electronic format under IC 5-14-6 to the executive	
24	director of the legislative services agency that includes at least the	_
25	following information:	
26	(1) The state spending cap for each of the state fiscal years in the	
27	immediately following biennial budget period.	
28	(2) The supporting data and calculations necessary for a person to	v
29	independently verify the manner in which the state spending caps	
30	described in subdivision (1) were determined.	
31	(b) This section expires July 1, 2005.	

SECTION 10. THE FOLLOWING ARE REPEALED [EFFECTIVE

JULY 1, 2004]: IC 4-10-21-3; IC 4-10-21-4.

32
